The Home of Sports, Prestige, and Classic Cars in the North East

PROUD TO BE BASED IN COUNTY DURHAM

Found nestled in the historic hills of County Durham, Car Barn Beamish has become the premier destination for automotive enthusiasts in the North East of England. Part of the Red Row Estate that encompasses sister companies Aston Workshop and the Black Horse Beamish pub, the Car Barn was established over a decade ago to handle the sale, service, repair, and upgrade of a wide range of cars. Since then, the Car Barn has grown, with a dedicated team of experienced staff operating out of a 9,000 sq. ft facility.

Car Barn Beamish has gone from strength to strength since its inception, adding more capabilities and widening its reach as one of the country's leading independent specialists. Over the following 16 pages you'll get a taste of the breadth and diversity of our work. Whether we're selling a lightweight British sports car, carrying out a service on an exotic supercar, upgrading

a customer's four-wheel-drive, hosting one of our Car Barn Drivers' Club meets or off-roading in the INEOS Grenadier, Car Barn Beamish are as busy as ever. For any motoring enthusiast in the North East, Car Barn Beamish has become the number one destination to visit.

Our facilities

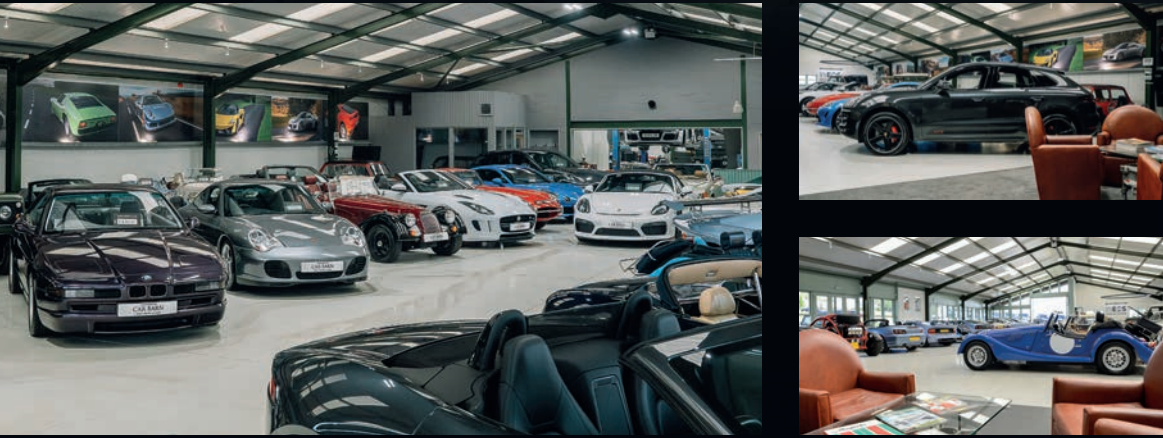

Car Barn Beamish is the newest of three companies situated on the Red Row Estate, a 37-acre site that also encompasses the Black Horse Beamish pub and Aston Workshop. The premier independent sports, prestige and classic specialist in the North East of England, the Car Barn was established over a decade ago to offer sales, service, repair and upgrade services to the bustling scene of car enthusiasts in the North.

As well as the Car Barn specific showroom and workshop our team can call on the expertise and equipment of Aston Workshop, and the fantastic hospitality of the Black Horse pub. Visitors to this automotive hub can always be sure of a warm welcome; our team are happy to chat and discuss your car needs and give you a tour of our expansive facilities.

Showroom

Guests arriving at the Car Barn are greeted by our dedicated Car Sales showroom, housing an ever-changing collection of over 35 cars. The eclectic selection is arranged in columns running the length of the showroom, representing the core of what Car Barn Beamish is all about; sports, prestige and classic cars.

Sales Office

Overlooking the Car Barn showroom, our sales office is the first step on a new owner's journey to owning their dream car. Built as part of a recent refurbishment of the Car Barn, the sales office is home to our Sales Manager Jonathon Webb who is happy to confidentially discuss sales, purchases, finance and part exchange options.

Specialist Workshop

The Car Barn workshop is the home of specialist service, repair and upgrade in the North East. Featuring the state-of-the-art diagnostic equipment to offer workshop services for even the newest supercars, as well as the traditional tools required for rare and desirable classics, our workshop is now also the North East home of service and repair for INEOS automotive.

INEOS Grenadier

An exciting new off-roader with the capabilities to take you further off-road than ever before, the Grenadier is a purpose built 4x4 from INEOS automotive. A dedicated section of our showroom houses a Grenadier on display, as well as an area for customers to specify their new car. We also have a number of demonstrator cars, allowing customers to experience the Grenadier's off-road capability for themselves.

Our history

Aston Workshop's diverse "spin off" brand

Hidden away within the Beamishburn Conservation Area lies the Red Row Estate, home to a diverse trilogy of companies with a worldwide reach. Built around the historic hamlet of Red Row, and established nearly 40 years ago by founder Bob Fountain, the Estate comprises of Aston Workshop, the Black Horse Beamish pub and the most recent addition, Car Barn Beamish.

The Car Barn opened over a decade ago as an independent specialist for classic and performance cars. After the acquisition of MacDonald Racing the Car Barn initially operated as Beamish Morgan, the North East's only Morgan franchise dealer, later expanding to become a wider sports and performance brand.

Cementing its place as the go-to destination for enthusiasts in the North East, the Car Barn launched the Car Barn Drivers' Club in 2022. A series of monthly car events, free to attend, drew hundreds of sports, prestige, and classic car owners to Car Barn Beamish. Later that year Car Barn Beamish announced a partnership with INEOS Automotive to be the sales and service agent for the all-new Grenadier 4x4. As well as a continued focus on sports, prestige and classic cars, the INEOS partnership supported a move towards other opportunities in the off-road automotive arena with the expertise to provide workshop services for a wide range of four-wheel-drive cars.

A thorough redesign of the Car Barn facility in 2023 updated the workshop, showroom, and sales office, complete with a dedicated INEOS Grenadier area which includes merchandise sales and specification tools. With over 35 cars in stock the Car Barn's reputation as an independent specialist has only grown since its inception, and visitors to the Car Barn will regularly be greeted by anything from nimble British sports cars from Lotus and Caterham to exotic supercars and sought-after classics. Car Barn Beamish, part of the historic Red Row Estate and only a stone's throw from the world-famous Beamish open-air museum, has become the North's premier destination for automotive enthusiasts.

The Aston Workshop

Established over 35 years ago, Aston Workshop has become the home of Aston Martin restoration in the North. A passion for all things automotive was ignited by the home restoration of an Aston Martin DB5 by Bob Fountain in the outbuildings surrounding his stone farmhouse. Fuelled by his early successes, Bob soon expanded the Aston Workshop set-up in order to work on more cars simultaneously and employed more staff with the specialist skills needed to pursue the very best engineering and restoration solutions for his growing customer base. Now complete with facilities for servicing, restoration, engineering, engine building, and an Aston Martin approved body shop and paint centre, the Car Barn and Aston Workshop are a formidable team.

Black Horse Beamish

Stay with us on site

Established over 300 years ago and lying at the very heart of the Red Row Estate is the Black Horse Beamish pub. Partnering with the Car Barn for the Car Barn Drivers' Club events, and offering hospitality to our customers through the Service and Stay offer, the Black Horse offers a unique extra dimension to our automotive destination. A pub, restaurant, and wedding venue, the Black Horse also offers accommodation including two cottages and a number of hotel rooms, all of which are in regular use by Car Barn customers visiting from further afield.

Right: Our variety of 19 rooms are available to Car Barn customers. All rooms offer luxurious four poster beds.

CARS
WE'VE SOLD
NATIONALLY

Part Exchange • Finance • Delivery • Friendly Service

Sell Your Car

Car Barn Beamish is the number one destination for sports, prestige and classic cars in the North East, so there's nowhere better to place your car for sale. We pride ourselves on our transparent and flexible options for selling your car; we can either buy your car directly, or you could consign it to our showroom allowing us to sell it on your behalf. While your car is on consignment we charge no up-front fees, and sales are only made when they align with the agreed price. Professional print and digital marketing, including placement in leading magazines such as Evo and Octane, as well as excellent photography amongst the beautiful County Durham countryside, are just a few of the benefits we can bring to selling your car.

THE BENEFITS OF SELLING TO US

Industry Experts

With over 35 cars for sale at any one time, Car Barn Beamish is considered one of the leading independent specialists in the country. A sister company to Aston Workshop, an Aston Martin specialist established over 35 years ago, the Car Barn team prides itself on leading the way in buying and selling Sports, Prestige and Classic cars.

Professional Marketing

We provide a multitude of marketing opportunities including a professional listing on our site and in a selection of globally recognised modern and classic car third-party sites. Each car features in a monthly email marketing campaign as well as being photographed expertly to stand out from the crowd.

No Fees

At Car Barn Beamish there are no fees involved with selling your car and a sale is only made in contingency with your agreed price.

Warranty

We provide a no-obligation warranty with your vehicle to help achieve the sale and we are dedicated to making the buying process as smooth as possible.

Transport with Peace of Mind

Our dedicated Aston Transport division prides itself on making the selling and buying process as stress-free and safe as possible. With one simple phone call to our team, we can have your vehicle collected, transported, and insured from A to B.

Private Customer Database

Calling upon a decade of experience, Car Barn Beamish has an eclectic range of customers from all over the world. These customers are passionate and knowledgeable about performance cars and always on the lookout to buy.

Complimentary Pre-Sale Inspection

Before any car is sold at Car Barn Beamish, we will offer a complimentary pre-sale inspection. This ensures the cars are showroom ready and correctly optimised to meet the customer's demands.

Finance

For people buying a car from the Car Barn, they have the ability to utilise the finance packages we have available. This increases the potential audience that can buy your vehicle, aiding in a faster time to sell.

The Specialist Workshop

The Car Barn workshop is equipped with state-of-the-art tools and diagnostic equipment that allows us to offer service, repair and upgrade services for everything from British classics to modern exotic supercars. Our classic car services range from traditional maintenance jobs, such as setting points and carb adjustments, to full recommissioning projects that breathe new life into your pride and joy. For owners with more modern prestige cars our reputation as a Ferrari and Bentley specialist is built upon

a decade of experience of caring for specialist and performance cars. We also offer a range of annual servicing options that can be tailored to fit the make, model, and history of your car. As the INEOS Automotive Sales and Service agent for the North East, our skills and experience also extend to off-road and 4x4 vehicles; whether rebuilding your four wheel drive car from scratch or simply upgrading its off-road capabilities, Car Barn Beamish are here to help.

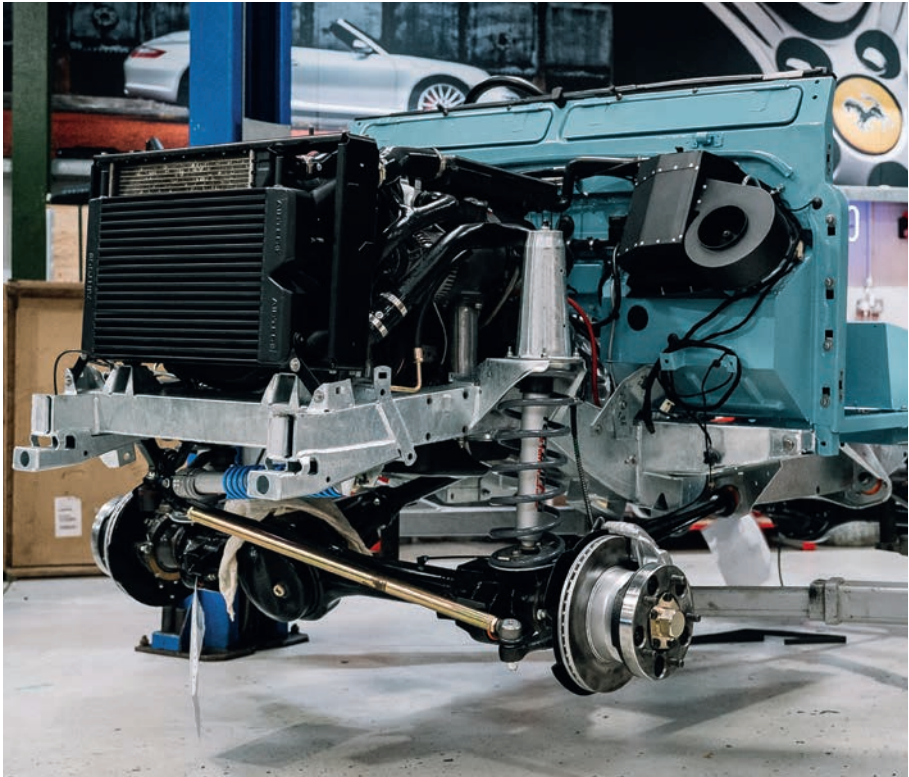

CASE STUDY Jaguar E-Type V12

The Car Barn are able to undertake small jobs to full restorations, but often we find a car in need of a more sympathetic recommissioning to return it to the road. This E-Type was in decent condition but couldn't be driven due to a number of mechanical issues. Our initial inspection revealed a heavily worn clutch and damaged flywheel which we then replaced. With the new clutch fitted and the car driving, the overdrive was audibly damaged; we removed the gearbox and overdrive for rebuild, then fitted it back into the car. After a full service, the car was ready to be enjoyed once again.

CASE STUDY Land Rover Defender

The owner of this Land Rover Defender 90 initially visited the Car Barn to view a car we had for sale, however during his tour of our facilities he realised that we were the perfect specialist to undertake the restoration of his Land Rover. Our initial investigation uncovered a lot of issues, so the decision was made to rebuild the car from scratch with a new chassis and bulkhead, rebuilt engine, axles and suspension componentry and a colour change to this fetching shade of blue. When finished, this Defender 90 will be better than when it left the factory.

changed, brake fluid changed
(every 2 years), fluid levels
checked, wheel-off brake and
suspension inspection, health check,
professional valet, and if applicable:
- Fuel filter changed
- Spark Plugs changed
- Differential fluid changed

CASE STUDY Jaguar F-Pace SVR

This Jaguar F-Pace SVR came to the Car Barn workshop with a warning light on the dash, which our team diagnosed as a camshaft position fault. After checking all sensors and actuators, and testing them on the opposite engine bank, we narrowed the issue down to one side of the engine. The engine was stripped to gain access to the front of the engine and the Bank 2 chain tensioner was found to be faulty which caused a small timing issue. A new chain, guide and tensioner corrected the issue, and the car was returned to the owner after a full service.

Service and Stay

Car Barn, Beamish, a year in pictures

Meet the team

We are proud to be part of the 100+ strong team working on Red Row Estate, alongside staff from the Black Horse pub and Aston Workshop to deliver the finest quality service to customers new and old. Of the many characters among us Jonathon and Chris lead the Car Barn Beamish team, greeting customers both at Beamish and the events we attend around the UK.

JONATHON WEBB
SALES MANAGER

Married with two children and living in Prudhoe, Jonathon is also the Chairman of the Hexham and District Motor Club organising rallies throughout the year and competing as a navigator. Starting as a young weekend trainee with Fiat/Alfa Romeo in Stockport, Jonathon worked up the ranks spending time in each department including a year on the Service desk. After 4 years he moved to Mangolesti Alfa Romeo in Cheshire, staying with the same marque during a move to Newcastle in 2008 to help open a new dealership. After time as Brand Manager for Maserati, Jonathon joined the Car Barn in October 2021 as Sales Manager.

For Sales enquiries contact Jonathon on 07442 897760 or email jonathon@carbarn.co.uk

CHRIS SHEARER
WORKSHOP MANAGER

Chris has been in the motor trade for the entirety of his working life, starting as a 16 year old at an independent Jaguar specialist with his father. 10 years there was followed by a brief stint living in Australia before he returned to the UK to take up a role with BMW. Over 23 years with BMW Chris worked as a Technician, Workshop Controller, Service Manager and finally Aftersales Manager overseeing a team of 40 people. Originally from Norton, Teesside, Chris is married with 2 children and is a lover of the great outdoors, with a keen interest in classic and 4wd cars.

For Workshop enquiries contact Chris on 01207 606120 or email chris@carbarn.co.uk

DANIEL WILLAS
TECHNICIAN

Dan joined Car Barn Beamish in the summer of 2022, bringing a wealth of 4x4 knowledge and expertise that was vital for the opening of our INEOS Automotive agency. Starting out as an apprentice at Citroen/Peugeot, Dan's interest in 4x4s took him to a Land Rover restoration specialist where he built unique one-off off-roaders. He lives in Durham with his partner and 2 children and spends his spare time competing in off-road competitions and winch challenges. Dan is a car person through and through, having owned many Land Rovers as well as modded enthusiast cars; his dream build would utilise a Hillman Imp!

LEE TATE
VALETER

A local lad, Lee grew up (and still lives) in Springwell Village. Married with three children and three more grandkids, Lee has always worked as a valet and detailer since his first weekend job at 14. That weekend work soon became a full-time job before a decade-long stint at BCA. Another long period running the valet bays at a large Arnold Clark dealership preceded a move to the Car Barn in 2021. Lee is a football fan, watching every Newcastle Womens' match and running a local junior team. He's also a car fan, once impulse buying a Sierra Cosworth with the money he'd saved as a house deposit.

All in the detail

Whether cars are visiting for a service or for sale in our showroom, Car Barn Beamish pride themselves on the appearance of the cars on site. All cars in for a service receive a complimentary valet before returning to their customers using professional methods and products, while cars consigned for sale are thoroughly prepared before presented to our customers by our detailing experts. With an on-site body and paint shop featuring world-class facilities, we can even offer full resprays to give your car the finish it deserves.

All your transport solutions covered

Aston Transport is our very own car transportation division, offering door-to-door transport for customers nationwide. Working 7 days a week, our fleet of covered transporters is on hand to provide a fully insured, reliable and professional transport service. We organise collection or delivery right up to your door, including not only the car but any parts and loose items associated with it as well. Our extended fleet of transporters can transfer four vehicles at once, ideal for anyone moving their garage collection or attending shows.

Our fleet of transport vehicles is as varied as the cargo they carry. The flagship vehicle of the fleet is our Mercedes-Benz Atego with two-car capability, which is fully covered and fully equipped to carry a wide range of cars and parts. Our single-car Iveco EuroCargo is also fully covered, and for more local consignments or

transport tasks unsuitable for larger vehicles we also operate a single-car Fiat Ducato. These three vehicles offer huge flexibility in our car transport offering, and we even operate a Volkswagen Caddy for smaller parts and extra items.

CUSTOMER REVIEWS

Where the main dealers refused to quickly respond to a potentially major engine issue, the good people at Car Barn sorted us out. They received our car and went over and above to ensure the fault was found, resolved, and thoroughly tested. That's now 2 of our cars they've completed some outstanding work on.

MR G LAMB

A very big thank you to Jonathon and the team at the Car Barn. Absolutely fantastic service for a recent purchase made from the Car Barn. Delivery was very fast and actually arrived a few days ahead of schedule. Would recommend to anyone. Thanks again team.

MR G OWERS

I have attended every Car Barn Drivers' Club meet and enjoyed each one for the eclectic mixture of Cars on display and the great organisation from Jonathon and Jack. There is always some lovely food on offer too. I was also in attendance when they hosted the Smith and Sniff podcast!

MR D SHIPLEY

Car Barn Drivers' Club

Established in 2022 and now celebrating its third year of events, the Car Barn Drivers' Club celebrates the unique and varied car culture of the North East of England. One of the North's fastest growing monthly car meets, the Car Barn Drivers' Club is free to attend with visitors encouraged to simply turn up on the night with their sports, prestige or classic car and enjoy the atmosphere.

Each of our events is uniquely themed, and for 2024 we're bringing back some fan-favourites alongside some all-new meets such as "It's Caper Time", themed around the iconic 1969 film,

The Italian Job. The Black Horse Beamish, also part of the Red Row Estate, provides a unique range of food for each event and our showroom is open for guests to view our ever-changing cars for sale.

New for 2024 is the Car Barn Drivers' Club Membership, offering a range of exclusive discounts and benefits. Members are able to pre-book their place at each event, ensuring they won't be turned away from our busiest meets, as well as receive special offers in the Car Barn workshop and in the Black Horse pub. Best of all, there's no cost to sign up!

INEOS Grenadier at Car Barn Beamish

Car Barn Beamish are proud to be the North East sales and service agent for INEOS Automotive, manufacturers of the Grenadier 4x4. Built to fill a gap in the market for a utilitarian, no-nonsense off-roader, the Grenadier combines rugged British spirit with German engineering rigour. Having already taken on the world's toughest terrains and weathers through an extensive testing and development programme covering over 1.8 million kilometres in 15 different countries, the Grenadier has arrived at Car Barn Beamish ready for customer deliveries.

In an exciting chapter for the Car Barn, INEOS customers will benefit from dealing with an independent specialist established 35 years ago. With a transport service providing door-to-door collection and delivery nationwide and an experienced workshop team on hand to deliver quality servicing and repairs, Car Barn Beamish are ready to support new Grenadier owners through their ownership journey.

Grenadier

The Grenadier is where INEOS Automotive began; a purpose-built off-roader designed to take you wherever you need to go. Powered by a choice of 3.0L BMW straight-6 engines mated to an 8-speed automatic transmission, the permanent four-wheel drive Grenadier features a galvanised steel body over a full box-sectioned ladder frame for exceptional off-road capabilities. A two-speed transfer case, centre locking differential and Carraro beam axles front and rear are standard equipment, while the Grenadier is designed to be a 'blank canvas' with a range of optional equipment to suit each individual owner including winches, roof racks and pop-out safari windows.

Fusilier

At the start of 2024 INEOS Automotive unveiled its third model line, the INEOS Fusilier. An all-new design, the new 4x4 will offer two powertrain options to meet the individual needs of each customer; an all-electric variant and a range-extended electric variant. Slightly smaller than its INEOS Grenadier brother, the Fusilier will offer world class performance both on- and off-road and has been developed in conjunction with industry-leading automotive supplier, Magna. Building on the Grenadier's DNA with a modern direction and distinctive identity, the new 4X4 will be slightly shorter in length and slightly lower in height.

about INEOS at
Car Barn Beamish

Visit us for a test drive

*Interested in
purchasing a new
4x4 utility vehicle?
Step this way...*

Here at Car Barn Beamish, we aim to make purchasing a Grenadier a simple, straightforward, and enjoyable experience. When organising a test drive, we plan everything around each individual customer, focusing on the features and capabilities most important to them. Whether putting the Grenadier through its paces on our on-site off-road course or testing

its on-road capability on the variety of roads around our County Durham facility, we can organise the test drive most suitable for each potential owner. We even have an area of our showroom dedicated towards specifying your ideal Grenadier. To book a test drive of the INEOS Grenadier 4x4, get in touch with Jonathon at the Car Barn on +44 (0)1207 606 120.

Car Barn visits the Northumberland County Show

As a purpose built off-roader, the INEOS Grenadier was perfectly at home at the 2023 Northumberland County Show. We had two cars on display in front of the 30,000 attendees that made their way to Bywell, Northumberland on May 27th, with the first on our dedicated Car Barn Beamish stand. Our 5-seater demonstrator vehicle was the star of the stand, with visitors invited to get to know the all-new 4x4 in person.

We also took our 2-seat commercial demonstrator to the County Show, displayed as part of the Forestry Commission stand, to show how a more utilitarian version of the Grenadier could be of use to the agricultural professionals in attendance at the event. With the introduction of the Quartermaster pick-up, the Grenadier is quickly becoming a top choice for commercial and agricultural customers.

Quartermaster

The Quartermaster was introduced at Goodwood Festival of Speed 2023, with deliveries beginning in 2024. A pick-up variant of the Grenadier, the Quartermaster offers even more versatility carrying awkward loads on extreme off-road terrain. A sizeable load bay, paired with unrivalled off-road capability among pick-ups, means you can carry even the most impractical cargo to remote destinations. Featuring the same drivetrain as the Grenadier, as well as the same ground clearance and wading capability, the Quartermaster is 545mm longer allowing for an extended load bed (capable of carrying 760kg) with minimal sacrifice to interior space. Grenadier at Croft

When searching for a recovery vehicle suitable for supporting round 6 of the British Touring Car Championship, held at Croft Circuit in North Yorkshire, the INEOS Grenadier was the obvious choice and Car Barn Beamish were happy to provide a car for the weekend.

A full weekend of racing, including support races from the British

Formula 4 championship, the Porsche Sprint Challenge and the MINI Challenge, delighted the viewing crowd while the Grenadier was on standby to recover any cars that suffered mechanical issues or were involved in accidents.

Another Grenadier was on display to visitors to the circuit, staffed by experts from INEOS who were on

hand to demonstrate the unique features of the all-new off-roader. While the smooth surface of a race track is unusual terrain for the Grenadier, the car proved an excellent recovery vehicle due to its towing capability and ability to handle grass and gravel runoff areas with ease.

The Car Barn Kielder Targa Rally

On September 17th 2023 Car Barn Beamish sponsored the inaugural Kielder Targa Rally, organised by Hexham and District Motor Club. The rally was the first of its kind around the world-famous Kielder Forest, close to the Scottish Border and overlapping with the Northumberland National Park. Kielder Forest, the largest man-made woodland in England, has a strong rally heritage with WRC stages held there in the past.

The event was oversubscribed, with 50 crews from around the country starting the event near Wark, before the route took them in and around the forest surrounding Stonehaugh

village. In true 'Kielder Killer' fashion seven cars had to drop out due to mechanical issues before the half way point, such is the harshness of the terrain on rally-prepared vehicles. The eventual winners were the crew of Car 11, Elliott and Sam Stafford. They had made the trip north with their Mazda MX-5 from Shropshire to compete and were delighted to come away with an overall victory.

"It's been months and months of hard work", said Co-Organiser Ali Procter, "but we are so pleased it's been well received by all of the competitors. We had over 50 volunteer marshals standing outside in the forest during the day,

in variable weather, we are most grateful for their support. We also must thank Forestry England for their support during the event too."

A Targa Rally is a new form of motorsport designed to allow entry to standard road cars, although most competitors choose to modify their cars to stand up to the rigours of fast off-road driving. It's a very affordable way to enjoy motorsport and is quickly growing as a popular form of clubman motorsport.
